[Linkedin](#) | [GitHub](#)

## Projects

### ChallengeForge :-

Crafting a comprehensive contest hub, complete with front-end and back-end integration, empowering users to engage in diverse challenges while ensuring a secure, user-friendly experience.

- Contest purchasing capability has been integrated.
- Email method is implemented.
- Distinct roles—Admin, Creator, and User—have been established. Admin will control the entire website. The creator can create a contest and the user can only participate.

TechStack: React, MongoDB, Express, Nodejs, Tailwind, Firebase
